LAUNDRY EQUIPMENT THAT KEEPS YOU WORKING.

YOU MIGHT NOT BE IN THE LAUNDRY BUSINESS, BUT YOUR BUSINESS DEPENDS ON LAUNDRY.

You need a constant supply of fresh linens, spotless clothes, clean towels and more. Wash, Dry, Repeat!

What you don't want is to waste your time on breakdowns, be driven crazy by frustrating repairs, wade through bottlenecked laundry or be rudely interrupted by downtime, all taking your attention away from your core business and what you do best.

That's why we're Australia's sole distributor of Maytag® Commercial Laundry equipment, proven to stand up to the day-to-day rigors of even the toughest and most remote Aussie areas.

You need premium laundry equipment that lasts, best suits your use and location, fits your space, is easy to use and helps control operating costs, so that's what we provide. And behind it all, support you can trust.

With our industry leading warranty, cycle after cycle, year after year, you can depend on us to help you keep your laundry running smoothly, so you can keep your business moving forward.

DEPENDABLE SOLUTIONS FOR DIFFERENT ENVIRONMENTS

We see you. No two laundry rooms are alike. We've got you. That's why we've built so much flexibility into our equipment and range to our services. You can count on us to work with you to determine the right equipment for your business - whatever corner of Australia you're in, whatever business you're in.

Our promise is in our name.

WASHERS WITH RELIABILITY IN EVERY CYCLE.

"We demand satisfaction!" Your laundry needs to be up to the task, whatever the day brings. So Maytag® Commercial has built a commercial front-load washer with a drive system tested to withstand the demands of heavy-duty loads and continual cycles and usage.

THE DURACORE DRIVE SYSTEM—TESTED TO 15,000 CYCLES

The drive system on a commercial front-load washer can be one of the most difficult and expensive components to service. So Maytag® Commercial set out to raise the bar—for reliability, serviceability and durability. To start, they put their front-load washers to the test in our design lab, recording 15,000 cycles. Those machines are then put to a challenge being tested in the real world with actual consumers and end-users.

The dependability you are looking for? It's right here.

FRONT-LOAD WASHERS

- Super Quick Cycle Times
- Proven Dependability
- Longest Warranty in the Industry
- Low Water Use
- Best Cleaning Performance
- Easy-to-Use

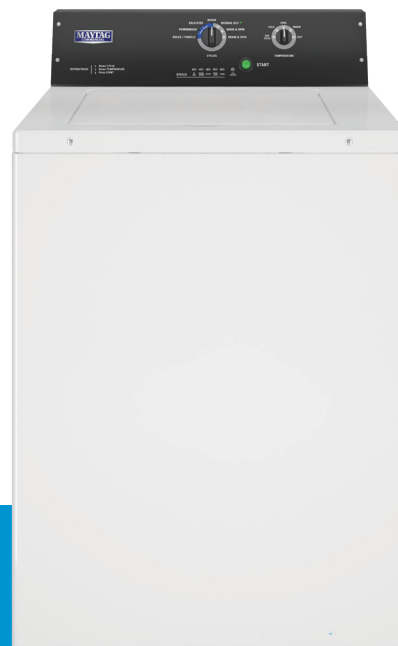

TOP-LOAD WASHERS

- Built to Last
- A Powerful Clean
- Easy to Service

COMMERCIAL WASHERS

MHN33PN

- 9kg capacity
- Simple non-coin, push to start
- High efficiency - only 40 liters of water on average per cycle

DURABILITY

- Heavy-duty steel cabinet
- Robust 180 degree door hinge
- Premium porcelain enamel top

POWERFUL PERFORMANCE

- Advanced spin technology
- TurboWash™ system
- Stop/pause button

RELIABILITY

- DuraCore drive system
- Triple lip seal with garter spring

SERVICE MADE EASY

- Front-access panel
- Easy-to-use diagnostics

MHN33PD VENDED

- 9kg capacity
- High efficiency - only 40 liters of water on average per cycle
- Coin drop takes \$1 & \$2 coins
- Card reader compatible

DURABILITY

- Heavy-duty steel cabinet
- Robust 180 degree door hinge
- Premium porcelain enamel top

RELIABILITY

- DuraCore drive system
- Triple lip seal with garter spring
- Shaft sleeve

POWERFUL PERFORMANCE

- Advanced spin technology
- TurboWash™ system
- Multiple customisable pricing options

SERVICE MADE EASY

- Front-access panel
- Easy-to-use diagnostics

MAT20MN

- 8.5KG capacity
- Simple non-coin manual push to start

DURABILITY

- Heavy-duty steel cabinet
- Full-wrap metal console
- Premium porcelain top & lid

POWERFUL PERFORMANCE

- Deep water wash system
- ½ HP PSC motor

- Traditional flex vane agitator

SERVICE MADE EASY

ROBUST INDUSTRIAL DRYING SOLUTIONS.

WHY PURCHASE ADC i-SERIES DRYERS?

For over half a century ADC has been in pursuit of creating the perfect dryer and supplying those industrial dyers to over 90 countries worldwide. As part of the Maytag Commercial family, ADC Dryers are proudly American built and committed to designing the ultimate drying machine. The All-New Intelligent Dryer series continues the legacy of cutting-edge technology with unsurpassed reliability for your peace of mind.

Performance

Through innovative design, the i-Series dryers achieve higher performance, industry-leading efficiency, shorter dry times and safer, more reliable operation. What an owner wants, an owner gets: saving money on utilities and maintenance. Anyone can say their dryers have the best performance, the Intelligent Dryer Series has the features to prove it.

Reliability

We know you require more than just outstanding performance in the toughest laundry environments. To accommodate this, ADC engineered the i-Series with years of reliable operation as an absolute design necessity and backed it by the best warranty in the industry. A sturdy steel welded cabinet, fewer moving parts and top-quality components are the foundation of these i-Series dryers. Costly repairs and unwanted downtime will become a thing of the past.

ADi FEATURES

- Variable drum speed with simplified inverter drive system for when reliability is key
- Pre-heat system and trans-axial airflow for maximum efficiency and fastest possible dry times
- Fully insulated cabinet to keep heat inside your dryer and out of your laundry room
- Gravity self-cleaning lint screen for easier maintenance on site
- Two-point roller support
- Single-phase reversing basket prevents your linens from tangling and ensures easy installation
- Stainless steel basket and fronts give you the sharpest aesthetic and most durable product
- SAFE fire suppression for your peace of mind.
- Simple IMC intelligent controls with one-touch cycle selection
- **Unbeatable 5 Year warranty – all parts covered**
- Available in Natural Gas, LPG or Electric operation
- Order as either non-coin, coin or token, or card only.
